

RIVER MONSTERS

Season 8 Series Description

Jeremy Wade, freshwater detective, biologist and extreme angler has spent the last 30 years on the hunt for river monsters. His freshwater quests have taken him to rivers and lakes all over the globe, including some of the most inhospitable places on Earth.

Now, Jeremy is stepping into a realm that is virtually unknown and unexplored... the big blue. It's time to take his unparalleled knowledge and experience and apply it to the vastness of the oceans to investigate what creatures are responsible for mystery attacks and disappearances.

In this brand-new season, Jeremy drags to the surface beasts that lurk at 10 thousand leagues, and dives into their alien world to confront the most venomous and deadly marine monsters on the planet.
